

Heinkel 1078 B

La version He 1078B enfin dont l'ingénieur Siegfried Günther dira après-guerre que se fut sans doute son design le plus stupide. Personnellement je trouve la formule marrante

Maquette Czechmaster au 1/72

ABOVE: The radical P 1078 B – which may or may not have been an entirely postwar creation. The available evidence suggests that it was not, but it was never an entry for 1-TL-Jäger.

ABOVE: Contour drawing shows how the two 'noses' of the He 107B gently curved inwards towards the aircraft's centreline.
